To whom it may concern.

Dear Sir/Madam,

I am Fabio Caleffi, the corresponding author for the manuscript "Impurity dephasing in a Bose-Hubbard model", submitted to New Journal of Physics on 27 November 2020 and accepted on 27 January 2021.

We apologise for the delay in contacting you in response to the emission of the invoice regarding the payment of the publication fee of our article, due to the necessity of coordinating our respective institutions with respect to the payment process.

We hereby would like to kindly ask you whether it is possible to split the original invoice into two different invoices (each covering 50% of the total publication fee) billed to two different institutions.

As regards the invoice under the responsibility of SISSA (my institution), we ask for the following data to be inserted/modified:

Purchase order: 6/2021
CUP: G94I19000440006
CIG: ZEA307B09E
SISSA VAT number: IT00551830326

in order to allow SISSA to properly process the payment.

On the other hand, I kindly ask you to put on hold the emission of the second invoice (to be addressed to CNR, the Italian National Research Council) temporarily, as the CNR has requested that the publisher fills out the self-declaration forms attached to this e-mail.

We would be extremely grateful if you could fill in these forms as much as possible. We will take care of sending you the billing data immediately afterwards.

Please consider Dr Alessio Recati (included in CC) as the reference contact in case of any issue regarding the CNR forms.

Thank you in advance for your kind assistance.

Yours faithfully,

Fabio Caleffi
