The National Institute of Optics in Florence is accepting applications for a post-doc position in the field of "Development of Spectroscopical Techniques for the Detection of Molecular Species in Industrial Emissions".

The position will be awarded for 9 months, subject to yearly renewal according to the relevant regulations, with a gross yearly salary of €14.250, paid in nine monthly installments.

The successful candidate will be chosen through a process of interview (40%) and consideration of all relevant qualifications (60%) including, degrees and awards obtained, postgraduate activity, scientific activity and publications etc.

The position is not compatible with any other type of scholarship awarded by CNR, universities or other research institutes, other than such as may be required to complete the research program abroad. Successful candidates may attend taught PhD courses which are not remunerated.

Requirements:

- a) Master degree in Physics or equivalent
- b) experience in the field of "Development of Spectroscopical Techniques for the Detection of Molecular Species in Industrial Emissions, statistical and software methods for spectroscopical techniques and analysis of experimental dates".
- c) Good written and spoken English

How to apply:

The application form for the position is available at

<http://www.inoa.it/AllegatiPubblici/ASSASSINO0212010FI/ASS%20INO%20021%202010%20FI.pdf>

and should be accurately completed and either directly presented or sent by registered post with confirmation of receipt to:

Istituto Nazionale di Ottica - CNR
Largo Enrico Fermi n°6
50125 Arcetri - Firenze
Italy

on or before the 27th December 2010. Late or incomplete applications cannot be considered.

The application MUST include the following documents:

- a) Academic qualifications with a "Statement of equal value" (dichiarazione di valore) issued by an official Italian embassy
- b) Certificate of equivalence of academic qualification, or receipt of request for same, issued by the Italian Ministry of Education and Research (MIUR)
- c) Curriculum Vitae detailing scientific and professional activity

- d) All other documents and qualifications which the candidate wishes to bring to the attention of the examining board
 - e) List of publications
 - f) List of all documents presented with the application
- IMPORTANT:** The application form must be carefully and fully completed.

Please contact Francesco D'Amato (francesco.damato@ino.it) for further information.

Interviews will be held on the 11th of January 2011 from 15:00, at the National Institute of Optics – CNR, Largo Enrico Fermi n°6, 50125 Arcetri – Firenze, Italy.
In case of date change for the interview, candidates will be informed.

Foreign candidates wishing to apply for the position, may formally request to be interviewed in videoconference. Those wishing to do this must send an email to francesco.damato@ino.it before the deadline above, detailing the motivation for the request.

The email must also specify the name, telephone number and email address of an official (e.g. Lecturer, Professor, Senior Researcher etc) of a University or Research center, who will certify the candidate's identity.

Candidate's wishing to have the sent documents back, have to send a formal request to the director within six months from the official appointment of the position.
